

KARTHICK V

PYTHON DEVELOPER | JUNIOR DATA ANALYST

Tiruppur, Tamil Nadu | +91 75501 17389 | karthickv96776@gmail.com | linkedin.com/in/v--karthick | github.com/karthick2325

PROFESSIONAL SUMMARY

B.Sc Computer Science graduate with a foundation in Python, SQL, MySQL, data processing and analytics. Familiar with Python programming, OOP fundamentals, exception handling, Flask and REST API concepts, along with Excel, Power BI, data cleaning, validation and reporting. Hands-on academic project experience with structured data, database operations and CRUD-oriented workflows. Seeking an entry-level Python Developer, Backend Developer or Junior Data Analyst opportunity.

TECHNICAL SKILLS

Programming: Python, SQL, Core Python, OOP fundamentals, exception handling, file handling

Backend: Flask fundamentals, REST API fundamentals, CRUD operations, backend development concepts

Data Analytics: Data cleaning, data validation, data processing, analysis, reporting, trend and pattern identification

Data Tools: Microsoft Excel, Pivot Tables, VLOOKUP/XLOOKUP, IF, SUMIF, COUNTIF, Charts, Power BI basics

Databases: MySQL, SQL querying, database management, PostgreSQL basics

Python Data: Pandas basics, structured data processing

Tools: Git, GitHub, VS Code, Generative AI, Prompt Engineering

ACADEMIC PROJECT

Smart Zoo Management System

- Developed a web-based management system concept for animal, visitor and ticket information using structured digital records.
- Worked with MySQL database operations and SQL queries for storing, retrieving, filtering and managing application data.
- Implemented data validation, CRUD-oriented operations and structured processing for accurate record management.
- Applied Python/Flask backend concepts and database integration as part of the project development workflow.
- Organized project data for reporting, operational tracking and efficient information retrieval.

TRAINING

Professional Data Analytics with Python and Generative AI — Anudip Foundation

- Practical learning in Python, SQL, data processing, Excel, Power BI and Generative AI.
- Developing Python programming and data-processing skills applicable to backend and analytical workflows.

EDUCATION

- B.Sc Computer Science | Bharathiyar University | 2023–2026 | 76%
- Higher Secondary Certificate (HSC) | 2020 | 60.3%
- Secondary School Leaving Certificate (SSLC) | 2018 | 67.4%

CORE STRENGTHS

- Problem Solving
- Analytical Thinking
- Quick Learning
- Attention to Detail
- Communication
- Teamwork
